

FIRST SQUEEZE/ PRE SQUEEZE ROLLER

Cover Type:	Rubber
Possible applications:	Textile Industry- Sizing of Yarns
Hardness Range:	65-70 Shore A
Available Colours:	Black, Red
Recommended Cover Thickness:	Min 10 mm - Max 20 mm
Temperature resistance:	Continuous 90°C/Peak 110°C
Properties and advantages:	Blended polymer compound perfect for sizing. Very durable and long life compound. Excellent chemical stability and temperature resistance for sizing. Excellent abrasion resistance. High stability of hardness.
Recommended cleaning products:	Most industrial cleaners, water, alcohol based cleaners
