

HEAVY MANGLE PADDER ROLLER

Cover Type:	Rubber
Possible applications:	Textile Industry- Finishing
Hardness Range:	85/90/95 Shore A
Available Colours:	Black
Recommended Cover Thickness:	Min 17 mm - Max 20 mm
Temperature resistance:	Continuous 90°C/Peak 110°C
Properties and advantages:	<p>TOP-SEC Superior Nitrile based compound. Compound quality has been developed to optimize the water removal in textile finishing padders to obtain an efficient squeezing rate. Very good temperature and chemical resistance.</p> <p>TOP-SEC PRO Excellent Hypalon (CSM) based compound. Excellent compression capability showing its best results when working under strong mechanical stress. Compound is designed to work under strong pressure and maximize the water removal to obtain an efficient squeezig rate.</p>
Recommended cleaning products:	Most industrial cleaners, water, alcohol based cleaners
