

# HEAVY NIP ROLLER

Cover Type:	Rubber
Possible applications:	Textile Industry- Bleaching /Processing
Hardness Range:	75+/-5 Shore A
Available Colours:	Black
Recommended Cover Thickness:	Min 14 mm - Max 16 mm
Temperature resistance:	Continuous 90°C/Peak 110°C
Properties and advantages:	<p>TEX-PRIMER Superior Nitrile based compound for Bleaching and Processing application. Superior chemical stability. High Squeeze Efficiency. Very good physical properties and abrasion resistance.</p> <p>TEX-PRO Excellent Hypalon (CSM) based compound for Bleaching and Processing application Resistant to Acid and Alkali solutions. Excellent abrasion resistance. Excellent Squeeze Efficiency. Excellent performance for long period of time.</p>
Recommended cleaning products:	Most industrial cleaners, water, alcohol based cleaners
